

## Changes

- Changed Aside to NAV tag.
  - Purpose: wouldn't pass CSS validation with aside and nav class
  - Includes all asside selectors
- Under main-wrapper selector modified code for grid layout
  - added columns and rows
  - modified other code (can't remember exactly)
- nav (old aside) selectors
  - added code for grid layout
  - modified other code (can't remember exactly)
- .main-content-wrapper selectors
  - added code for grid layout
  - modified other code (can't remember exactly)
- main-content-wrapper h1 selectors
  - added code for grid layout
  - modified other code (can't remember exactly)
- footer selectors
  - added code for grid layout
  - modified other code (can't remember exactly)
